

Headteacher's Blog

Sunday 26th April 2020.

Dear Parents/ Carers and Friends of Whittingham Primary School,
As we approach another week I hope my Blog finds you all keeping safe and well. Thank you to you for continuing to support your children in their learning from home both formally and informally. Please keep sending your pictures in, it is lovely to see what everyone is getting up to.
Take care, with very best wishes.
Belinda Athey - Headteacher.

More learning fun. Professor Brainstorm's Home Science Experiments

www.profbrainstorm.co.uk/homescience.htm

This page contains some experiments that you can do at home whilst school is closed to the majority of pupils.

You won't need any special equipment – just yogurt pots, Pringles tubes and other bits and pieces that you can probably find easily at home. The experiments are aimed at Primary age children (aged from 4 to 11 years).

Northumberland Schools Sumdog Maths Competition

It is fantastic to see that the great majority of children are taking part in the competition. Well done! On the leaderboard of Northumberland Schools so far are;
Charlie D 35th
Kira 36th
Josh 43rd
Alex 47th

STAY AT HOME
