

Friday 28th April

Dear Parents/Legal Guardians,

As you are aware the Y2 children will be undertaking their SATs assessments **throughout** the month of **May** (please see additional letter for full explanation).

During the month of May I will be giving the children some additional homework to help support their learning. This will be given as a **paper exercise** and not on School 360 as is normally the case.

Please continue to support your child at home by helping them to complete their homework. This may be Maths, Literacy or both.

You can also continue to support your child by:

Reading daily - Additional focus on **grammar** - ask your child to find a word which is an adjective, a noun, a verb, an adverb. This will help them in their grammar assessment.

Practice known number facts - time tables (x3, x2, x5, and x10) and **number bonds** (10, 20 and 100)

A very useful Maths website which covers a wide range of maths concepts:

www.topmarks.co.uk/ (refer to **KS1** resources)

Many thanks for your support.

Kind regards,

Mrs Maule
