Thrive Approach

After a 10 day assessed course which has finished this week I am pleased to announce that I am now a trained Thrive Practitioner!

Thrive is a therapeutic approach to help support children with their emotional and social development. The Thrive approach offers practical strategies and techniques and is built around online assessments which identify children's emotional development and provides action plans for their individual needs. I feel that this course will benefit all the children as we can take lots of the activities and practices that are used to ensure all children are happy, resilient and ready for successful school and life experiences.
