

- 5** Draw lines to match the sentences.  
Then complete a number sentence for each pair.

I shared  between 4 people.

Each person had 10.

I shared  between 2 people.

Each person had 5.

$$\square \bigcirc 4 = \square$$

$$20 \bigcirc \square = \square$$

**CHALLENGE**

## Reflect

Draw a picture to show 10  shared between 5 people.

Complete a division to represent this.

$$\square \bigcirc \square = \square$$

What does each number and sign represent?
