# SO WHAT'S INVOLVED?

Creating exciting theatrical performances using a blend of singing, acting and movement to tell a story.

Creating a performance for an audience: making a programme, managing costume changes, manipulating props, introducing songs, creating connections between items in a programme.

Working on performing songs from a range of musicals from different eras and individual songs in a musical theatre style (such as cabaret or songs from films and TV). Developing a deeper understanding of the music and how the interpretation of it can enhance the story telling.
