DIY SOS!

Dear Parent/ Legal Guardians,

Our school site will soon be looking its best again once the roof work has been finished and the scaffolding has gone. We will then be able to resume our work in developing the outdoor areas around school.

I have managed to secure some funding for seating and gravel for an outdoor seating area in the area adjacent to Class 2 and 3. All I need now is some muscle power!

The area needs clearing and soil dug out so that the gravel lies slightly below the tarmac pathway.

It would not take a few strong helpers very long at all. If you are able to help, please come to the office anytime with a spade and you will be shown where to start!

Please help us as soon as you can as it would be lovely to make a new space for our children while the weather is good.

Many thanks,

Belinda Athey – Headteacher.
